

ACID STAIN

TECHNIK
DECORATIVE CONCRETE

Technik Acid Stain offers endless design options by allowing the etching of new or old concrete, resulting in wonderful variegation and patinas. Technik Acid Stain can be used on new and old concrete, including over color hardened, integrally colored or stamped concrete.

Grey Base

White Base

Ensure concrete has cured sufficiently before applying Technik Acid Stain. These swatches are to be used as a guideline only. Always do a test sample as color results will vary based on the unique properties of each concrete substrate
